

nature machine intelligence

The background is a dark blue, futuristic digital landscape. At the top, a glowing blue circuit board is visible. Below it, a square frame contains a grid of blue and white squares, resembling a data matrix. From this frame, several bright blue, wavy lines of light stream downwards, carrying with them green and white binary code (0s and 1s). In the lower right foreground, there is a large, three-dimensional padlock made of blue and white particles, appearing to be constructed from data. The overall aesthetic is high-tech and data-driven.
